Since 1992, RMS Publishing has had the sole aim of aiding student success through an extensive range of study guides, presentations, e-learning packages and audit checklists in the areas of occupational health and safety.

We have a number of NEBOSH accredited course providers on our client list who provide our study guides to their own students. Whether you're already providing NEBOSH courses or are looking to offer an additional qualification, our market leading products and expert support will help improve your pass rates and grow your organisation.

- Bulk discounts are available.
- Save tutor time and money on development and updates.
- Excellent for inclusion within accreditation application submissions - let us help and save you time in your application.

NEBOSH STUDY BOOKS AND RESOURCES

RMS Publishing provide technical authoring input to a number of resources in the form of study books and PowerPoint presentations related to NEBOSH qualifications.

Each publication is designed to reflect the structure and intent of the NEBOSH syllabus. They are written at the level and depth appropriate for study of the NEBOSH qualifications by experienced tutors. They are recommended by NEBOSH as offering high quality support for the delivery of NEBOSH qualifications, so you can trust that they will provide you with what you will need.

Typical features of NEBOSH study books:

- Full colour throughout.
- Text directed to the specific learning outcomes of the syllabus and shaped to reflect examination needs.
- Practical explanations of risks, concepts and techniques that are supported by diagrams and images of actual workplace examples – helps engage you, and bring out the key learning points.
- Summaries of legislative or best practice standards.
- Sample questions and answers illustrate assessment requirements and confirm your understanding.
- Sample practical assessment reports.
- Available in e-book format (*where stated*).

Print licence

Would you rather print your own study guides?

By using our reprint licence service, you can print our study guides using your own facilities. This option will save time by removing the need for delivery. After purchase, a PDF of your chosen study guide will be sent directly to you.

Contact us for further information and prices.

PRESENTATIONS AND LESSON PLANS

RMS offer a range of PowerPoint presentations and lesson plans in support of professional NEBOSH course delivery in the principal areas of occupational health, safety, environment, fire and risk management. These support materials will save your organisation many hours of tutor time and are carefully designed to follow the syllabus and to provide coverage of all the main topics but can also be tailored to your own requirements.

The PowerPoints are presented in a clear, attractive visual format and follow the same structure as our study books.

We can even arrange to add your logo free of charge to ensure the presentation is personalised.

Always up-to-date

All RMS study guides and presentations are kept up-to-date with the latest legislation and NEBOSH syllabus changes.

- Free supplements are also released online to support our study guides.
- PowerPoint updates are provided free of charge for the first 12 months, then it is subject to payment of a small annual fee.

NEBOSH Course Providers are reminded that course materials should be updated/maintained to meet NEBOSH accreditation requirements.

NEBOSH NATIONAL GENERAL CERTIFICATE

The essential guide for those with management responsibility in health and safety which has established itself as a market leader.

STUDY BOOK

This 11th Edition essential health and safety guide meets the current specification for the NEBOSH National General Certificate (NG) in Occupational Health and Safety and provides an excellent reference for all those with management responsibilities for health and safety in the workplace. It focuses on the main legal requirements for health and safety management within the UK, a range of workplace hazards and methods of control.

The practical and informative approach of the publication will provide managers, health and safety practitioners, and others who have associated responsibilities for health and safety with a perspective of the significance of health and safety risk in the workplace. It will also aid in the understanding of the control measures that can be applied to manage risk.

In addition, corporate risk managers, human resources managers, designers, engineers, facilities managers, process or service managers, suppliers, contractors and site managers may find this guide a useful reference source.

The general nature of this guide makes it highly applicable to a range of work activities and industries, providing an introduction to health and safety in the workplace.

Topics covered by the guide include:

- Legal requirements for health and safety at work.
- Implementation of health and safety management systems.
- Identification of workplace hazards.
- Methods of hazard and risk control.

We are also confident that those working towards national vocational qualifications will find this study book a useful companion for NVQ Level 3 in Occupational Health and Safety.

NEBOSH INTERNATIONAL GENERAL CERTIFICATE

Written by a team of experts, this study book offers high quality support for the delivery of the NEBOSH International General Certificate qualification.

STUDY BOOK

This NEBOSH study guide is completely up-to-date with the current syllabus for the NEBOSH International General Certificate qualification.

This essential health and safety guide focuses on international standards and management systems to provide a broad understanding of health and safety principles and practices that are relevant globally. The guide provides an excellent reference for all those with management responsibilities for health and safety. The general nature of this guide makes it highly applicable to a range of work activities and industries, providing an introduction to health and safety in the workplace.

The practical and informative approach of the publication will provide managers, health and safety practitioners and others who have associated responsibilities for health and safety with a perspective of the significance of health and safety risk in the workplace and aid in the understanding of the control measures that can be applied to manage risk.

In addition, corporate risk managers, human resources managers, designers, engineers, facilities managers, process or service managers, suppliers, contractors and site managers may find this guide a useful reference source.

This publication provides reference to significant international conventions, recommendations, codes, guidance and standards in the form of a summary and in context with the topics covered. Examples of how the topics relate to health and safety globally support the information provided.

HEALTH AND SAFETY MANAGEMENT FOR CONSTRUCTION (UK)

An essential health and safety guide for those with management responsibility in construction. Provides an understanding of the health and safety risks affecting this important sector of work and assists those responsible to manage them effectively.

STUDY BOOK

This essential health and safety guide provides an excellent reference for all those involved in construction activities. The guide provides an understanding of the health and safety risks affecting this important sector of work and assists those responsible to manage them effectively.

The practical and informative approach of the publication will provide managers, health and safety practitioners and others who work in the construction industry with a perspective of the significance of health and safety risk in construction activities and an understanding of the control measures that can be applied to manage risk. This publication would be particularly useful for clients, designers, contractors, principal contractors and site managers. Those working in facilities and event management industries will also find the guide useful, as many of the risks they encounter are similar.

The guide is an excellent source of information for those undergoing the following learning programmes:

- To meet the requirements of the NEBOSH Health and Safety Management for Construction syllabus.
- To develop the knowledge of managers and supervisors working in construction.
- To develop and enhance competency and skills needed for facilities managers.
- To develop and enhance competency and skills needed for those who construct and disassemble temporary structures for outdoor events, music or theatre production and trade or other exhibitions.

NEBOSH CERTIFICATE IN FIRE SAFETY

This essential guide meets the current syllabus and format of the NEBOSH Certificate in Fire Safety qualification, as well as being a useful resource for those with fire management responsibilities.

STUDY BOOK

This guide will provide an excellent reference for all those with management responsibility in fire safety throughout the world to help enable them to ensure that their organisation meets its responsibilities and safeguards its people and its business.

The publications text is directed to exam needs with practical explanations, and is structured to reflect the order, content and level of understanding required by this syllabus. Students studying for examination will find the sample questions, answers and practical assessment report of particular use. This essential reference source now benefits from a more detailed level of indexing, making it even easier to access information on your chosen topic.

Although the main purpose of this publication is to support NEBOSH Fire Certificate students, it is also useful for a number of NVQ schemes and also provides an excellent reference for all those with management responsibility in fire safety to help enable them to ensure that their organisation meets its legal duties and safeguards its people and its business.

This study book is also an appropriate source of information for those moving into Fire Safety Advisor roles; enabling them to carry out fire risk assessments of most low risk workplaces, and identify the range of fire protective and preventative measures required. Fire Service Personnel will also find the publication of benefit in developing their underpinning knowledge as part of the Integrated Personal Development System.

ENVIRONMENTAL MANAGEMENT CERTIFICATE

This essential guide is designed to provide an understanding of how environmental aspects, such as inefficient use of energy, will impact on the planet's finite resources and how actions today will improve sustainability for future generations.

STUDY BOOK

This Essential Health and Safety Guide to the globally relevant NEBOSH Environmental Management Certificate qualification provides an excellent reference for those who have responsibility for or involvement in environmental management as part of their work in the UK and/or internationally.

This guide provides an understanding of environmental issues, the associated risks and opportunities and how they can be managed at work. This guide will assist those involved to deal effectively on both a day-to-day operational level and strategically for improvement.

This guide contains an emphasis on practical solutions to environmental issues in the workplace. Learners will be able to help their organisation manage its positive and negative environmental aspects and support the implementation and continuous improvement of effective environmental management systems.

Topics covered in the publication include:

- Foundations in environmental management.
- Environmental management systems.
- Assessing environmental aspects and impacts.
- Planning for and dealing with environmental emergencies.
- Control of emissions to air.
- Control of environmental noise
- Control of contamination of water sources
- Control of waste and land use.
- Sources and use of energy and energy efficiency.

INTERNATIONAL OIL AND GAS OPERATIONAL SAFETY

This essential guide is an excellent source of information for those undergoing the NEBOSH International Technical Certificate in Oil and Gas Operational Safety learning programme. It benefits from the contribution of an experienced oil and gas safety specialist who has taught this award from its introduction.

STUDY BOOK

This essential health and safety guide provides an excellent reference for those from around the world who work in Oil and Gas and the connected industries. Oil and Gas is a hazardous industry and managers, supervisors, offshore and onshore workers need specialist skills and know-how to fulfil their health and safety responsibilities.

It focuses on hydrocarbon process safety, so that candidates can effectively discharge workplace health and safety responsibilities both onshore and offshore throughout the world. It also highlights the importance of process safety issues in the industry and provides insight into technical and management solutions.

Topics covered by the guide include:

- Hazards inherent in the extraction, storage and processing of raw materials and products.
- Hydrocarbon process safety.
- Fire protection and emergency response.
- Logistics and transport operations.

The Essential Health and Safety Guide to International Oil and Gas Operational Safety refers to international conventions, recommendations, codes, guidance and standards in context with the topics covered. Examples of how the topics relate to health and safety globally support the information provided. This essential reference source now benefits from a more detailed level of indexing, making it even easier to access information on your chosen topic.

NEBOSH NATIONAL DIPLOMA

UNIT ND1: HEALTH AND SAFETY PRINCIPLES

UNIT ND2: HEALTH RISKS

UNIT ND3: SAFETY RISKS

These essential health and safety guides meet the current specification for the NEBOSH National Diploma for Occupational Health and Safety Management Professionals. For those seeking a successful long-term career in health and safety and who wish to be recognised as a professional in their field.

STUDY BOOKS

These publications are an excellent reference source for those active at NVQ Level 5, or undertaking University Diploma programmes and equivalent qualifications. They are also a valuable reference source for qualified health and safety practitioners and those with line management responsibilities for health and safety.

Management of health and safety in the workplace is not only a legal obligation and a moral imperative, it also makes good business sense. Qualified health and safety professionals are an asset to their organisations, reducing costs by preventing accidents and ill health of employees, without incurring unnecessary expense by over-reacting to trivial risks.

The books are supported by a variety of photographs and sketches; together with an abridged reference to legislation which students have found particularly useful.

NEBOSH INTERNATIONAL DIPLOMA

UNIT ID1: HEALTH AND SAFETY PRINCIPLES

UNIT ID2: HEALTH RISKS

UNIT ID3: SAFETY RISKS

These essential health and safety guides meet the current specification for the NEBOSH International Diploma for Occupational Health and Safety Management Professionals; take the next step and gain recognition for your health and safety expertise and professionalism anywhere in the world.

STUDY BOOKS

These series of three publications are designed to provide a health and safety knowledge base for those studying to NEBOSH International Diploma as well as being an excellent reference for health and safety practitioners operating internationally.

They build directly upon the foundation of knowledge provided by the International General Certificate and also provides a sound basis for progression to a Masters or more specialist study. They also provide the core health and safety knowledge which underpins competent performance as an Occupational Health and Safety Practitioner.

The International Diploma is recognised by the Institution of Occupational Safety and Health (IOSH) - the major UK professional body in the field - as fulfilling the academic requirements for Graduate Membership (Grad IOSH) and as a first step to becoming a Chartered Safety and Health Practitioner as a Chartered Member of IOSH (CMIOSH).

The qualification is also accepted by the International Institute of Risk and Safety Management (IIRSM) as it meets their requirements for full membership.

E-LEARNING SOLUTIONS

RMS Publishing has been developing and publishing e-learning packages for over 15 years in the area of health and safety. Our e-learning software is developed in-house giving us the flexibility to stay up-to-date with syllabus changes and legislation updates as well as making equally important changes to improve user experience.

We have extensive experience of working with training providers offering our innovative e-learning platform to their students. Save time and money by white labelling our e-learning platform instead of starting from scratch with your own. There are two flexible options to explore:

Outreach Centre

- Receive orders yourself but then let RMS do the rest.
- RMS fulfills the order by taking care of set-up, exams and support.
- Get 20% off RRP.

Accredited Centre

- Pair our e-learning platform with your organisation's own training expertise and accreditation.
- Manage your own students including exams and support.
- If you're not already NEBOSH accredited, we can support you through this process.
- Get 50% off RRP.

NEBOSH

International General Certificate

National General Certificate

National Certificate in Construction

National Fire Certificate

The e-learning platform adopts a linear design which takes users on an interactive journey through the core NEBOSH syllabus content with a range of exercises along the way.

Each element includes:

- Core learning PDFs.
- Reinforcement of the NEBOSH command words.
- Confirmation of understanding tasks.
- Relevant legislation, ILO recommendations, conventions and sources of reference.

Other features:

- A useful welcome presentation which explores the NEBOSH command words, the course syllabus, and exam tips.
- Optional support available from our experienced tutors.
- Practical assessment support and guidance.

Full course

£475 per qualification + VAT + NEBOSH fees

Individual Units

£265 per unit + VAT + NEBOSH fees

FREE TRIALS AVAILABLE

Get in touch with us to arrange a free 14 day trial of any of our e-learning courses. The trial will allow you to explore our software and decide if e-learning is the right route for you.

Learning aids:

Highly interactive and engaging learning aids appear throughout the course. These include, case studies, videos, multiple choice questions, and workplace inspection exercises.

Exercises to enable exam success:

Your exam technique including the management of time apportionment is developed through practice NEBOSH style exam questions. Also included is:

- Example answers and useful guidance.
- Exam practice and mock exam exercises.
- Study skills and revision tips.

PLEASE VISIT OUR WEBSITE WWW.RMSPUBLISHING.CO.UK

TAKE ADVANTAGE OF THE FOLLOWING:

- Links to HSE Acts, Regulations and guidance and other relevant links.
- Free legislative updates for study books and e-learning software.
- Free supplementary information for NEBOSH qualifications.
- Sample pages from our range of study books.
- Sample slides from the supporting presentations.
- Online software demos.

PLEASE CONTACT THE TEAM:

We have been providing a fast friendly service to accredited centres since 1992. We work with all centres throughout the world, offering publications for qualifications in management, technical, audit and more. If you are looking to purchase in bulk for your students or looking at training resources for your centre, RMS are on hand to discuss options at competitive rates.

If you are looking to add a new qualification or award to your portfolio or additional resource then we can discuss your needs and work out a competitive option for you.

Please also do not hesitate to contact us for advice on the benefits of using or reselling our NEBOSH, IOSH or iAS e-learning packages - the process is very straightforward.

- Contact us if you require training material for a specific topic.
- Send us your specification for a competitive quote for a new publication or reprint.
- Bespoke software - we are able to tailor any of our induction training packages to meet your organisations' specific requirements.
